So that the Interest of 100 and 5 l. for 9 Months cometh to 4 l. 14 s. 6 d. The same of all the rest.

This is the season for good Hus-
 bands to lop and prune superfluous
 branches from Fruit-trees, un-
 cover their Roots, set all kind of
 Quick-sets and Fruit-trees in the
 New of the Moona. Be sure the
 Wind be not North nor East; and
 set the same sides to the South and
 West, which grew at the first. Set
 Beans, Pease and Parsnips. The
 weather mild and Moon decrea-
 sing, dig Gardens, drench weak &
 sick Cattel, Kine with Verjuice,
 Horses with Water and Ground
 Malt sodden with a little Bran.

In this Month let not Blood,
 nor use Physick, unless necessary
 constrain thee. Beware of taking
 cold, for Rheums and Flegm do
 much increase this Month. It's
 hurtful to fast long; to drink
 Whitewine fasting is good. Use
 Meats that are moderately hot,
 for the best Physick is warm
 Diet, warm Clothes, and a merry
 honest Wife.

Remove Grafts of young Trees in the last Quar- ter, the Moon being in <i>Aries, Li-</i> <i>bra, or Scorpio.</i> If necessity urge, you may let Blood, but be sparing in Physick: And be sure when a warm day comes, to prevent taking of cold through carelesness; for the warm air this month is not lasting, but oft deceives us to our prejudice. In this month, slimy Fish, Milk and the like, that do oppilate and stop the Liver and Veins, and thicken the Blood, are to be es- chewed as Enemies to Health.
